Hospital Pharmacy Technicians are the unsung heroes behind every medication chart and every prescription. They make sure the right medicines get to the right patient at the right time. They don't just count pills – they run hospital pharmacies, they are leaders, educators, they are the organisers!

Pharmacy technicians support pharmacists so they can focus on their clinical roles. Some other roles technicians do include compounding, logistics, procurement, Pharmac claiming, clinical support, IT systems to name but a few.

They are THE backbone of hospital pharmacy. Everyday brings something new, and their work is essential to keeping the hospital running smoothly.

Skills needed:

- Problem solving
