Notes on Injectable Drugs

Completely revised format available in November 2026 – now taking orders!

The “must have” resource for the safe administration of injectable medicines in New Zealand has become even more useful.

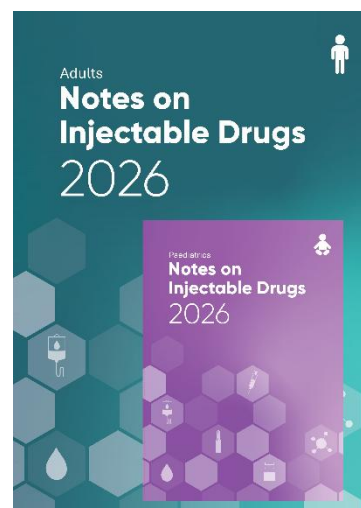

Guidance on how to prepare and administer the most commonly prescribed injectable medicines with separate articles **for adult and paediatric use**.

Completely revised and rewritten in 2026, with input from nurses and pharmacists across New Zealand.

All monographs **continuously reviewed to reflect current best practice** and New Zealand usage. In 2026, 7 new monographs were added, more than 80 were updated and every monograph has been rewritten in an easy to use new format.

Your staff can **access all the latest information online** – either directly through a browser or through links in your local software.

And the book you have come to rely on over the years is now **two books – one for adults and one for paediatrics** - reprinted with new material every year.

Price

Price for **online access** varies depending on the size of your organisation. Annual subscriptions start from \$448.50 (incl. GST and a free adults book) for an organisation with 1-3 regular users.

Contact info@noids.nz for exact pricing and number of free books for your organisation (if you subscribe to online access).

Individual books for adult and paediatric use \$304.75 each (incl. GST and delivery costs). Order forms on the NZHPA website at <https://nzhpa.org.nz/noids/> or from info@noids.nz
