## Notes on Injectable Drugs

Latest printing in November 2023 – now taking orders!

The “must have” resource for the safe administration of injectable medicines in New Zealand.

Guidance on how to prepare and administer the most commonly prescribed injectable medicines **for adult and paediatric use**.

Completely revised and rewritten in an easy to use format, with input from nurses and pharmacists across New Zealand.

All monographs now **continuously reviewed to reflect current best practice** and New Zealand usage. In 2023 3 new monographs were added and more than 50 updated to current best practice

Your staff can **access the latest information online** – either directly through a browser or through links in your local software.

And the book you have come to rely on over the years is still available – **free if you subscribe** to online access - and is reprinted with new material every year.

### Price

Price for **online access** varies depending on the size of your organisation. Annual subscriptions start from \$385.25 (incl. GST and a free book) for an organisation with 1-3 regular users.

Contact [info@noids.nz](mailto:info@noids.nz) for exact pricing and number of free books for your organisation (if you subscribe to online access).

**Individual books** \$258.75 each (incl. GST and delivery costs). Order form on the NZHPA website at <https://nzhpa.org.nz/noids/> or from [info@noids.nz](mailto:info@noids.nz)
